

A Psychologist's Guide to Machine Learning — Schedule

University of Zurich, March 16-20, 2026

DAY 1: Mon, 16.03.	
09:00 - 09:15	Welcome, Introduction, Schedule
09:15 - 09:45	Introduction to Anaconda & Google Colab, Setting up a programming environment
09:45 - 10:00	Introduction to Jupyter Notebooks
10:00 - 10:30	Coffee break
10:30 - 12:30	Python Basics A: Data types, variables, operators, loops, lists
12:30 - 12:45	Coffee break
12:45 - 13:45	Exercise A: Operators, loops, lists
DAY 2: Tue, 17.03.	
09:00 - 09:30	Recap & Questions Basics A
09:30 - 11:00	Python Basics B: Conditions, functions, modules
11:00 - 11:15	Coffee break
11:15 - 12:15	Exercise B: Conditions, functions
12:15 - 13:45	Lunch break
13:45 - 14:15	Questions Basics B
14:15 - 15:15	Python Basics C: Handling data, visualizing data
15:15 - 15:30	Coffee break
15:30 - 16:30	Exercise C: Handling data, visualizing data
16:30 - 17:00	Questions Basics C
DAY 3: Wed, 18.03.	
09:00 - 09:30	Warm-up machine learning
09:30 - 10:30	Talk: A gentle introduction to machine learning
10:30 - 10:45	Coffee break
10:45 - 11:00	Exercise intro: Learning from others — paper review
11:00 - 12:30	Exercise: Learning from others — paper review
12:30 - 14:00	Lunch break
14:00 - 15:00	Exercise presentation: Learning from others — paper review
15:00 - 16:00	Talk: Neural networks I — The basics
16:00 - 16:30	Questions & discussion

DAY 4: Thu, 19.03.	
09:00 - 09:15	Recap Day 3
09:15 - 09:30	Exercise intro: Basic machine learning algorithms
09:30 - 11:00	Exercise: Basic machine learning algorithms — Take your own break!
11:00 - 12:00	Exercise presentation: Basic machine learning algorithms
12:00 - 13:30	Lunch break
13:30 - 14:30	Talk: A few examples from Alina's research
14:30 - 15:00	Questions & discussion
15:00 - 15:15	Coffee break
15:15 - 16:15	Talk: The data science pipeline
16:15 - 16:45	Exercise: Evaluation criteria
DAY 5: Fri, 20.03.	
09:00 - 09:15	Recap Day 4
09:15 - 09:30	Introduction to coding practicals
09:30 - 12:30	Coding practicals I
12:30 - 14:00	Lunch break
14:00 - 14:30	Neural networks II — A word on LLMs
14:30 - 17:00	Coding practicals II
END OF WORKSHOP
